Money Trouble?

In the few years this editor has lived in Hancock County there have been several physical public improvements. All have been a step forward. The new North Central is probably the largest single item and the most impressive. However, since the school serves only a minority of our citizens it seems to us the new Hancock General Hospital may well have been our biggest stride.

Our new hospital averages four to five times as many patients as did the old one on Carroll Avenue, and for its size provides facilities equal to the very best. Notwithstanding complaints of operating in "the red" by members of the hospital board and notwithstanding the politics that seem to be plaguing its ugly head, our new Hancock General Hospital gets on the same millage as did the first aid station we formerly called a hospital.

This financing of the hospital's operation involves two basic questions. Is a community hospital supposed to make a profit? If not, who's supposed to foot the bill for any deficit? Even heavily endowed hospitals have difficulty making ends meet and they do not have to the same extent the responsibility of accepting non-paying indigent patients. Publicly owned community hospitals are not expected to make ends meet. They are expected to operate in the red because the community is expected to finance hospitalization of those unable to pay.

While it appears that our hospital will make ends meet with the present millage given it by the county, the question still arises as to what source should be taken if the present millage is insufficient to pay for the operating losses. Should extra taxes other than pay be cut? That sounds business-like, but it is not consistent with giving good care to patients and is opposed by the local doctors who think the hospital is now on a minimal basis. Employee pay could be cut, but we'd likely lose many of the more valuable employees. Getting those who could pay their bill but don't to pay up would help as would raising rates for those who do pay, thus making this group carry an even bigger share of paying for those who don't, and the millage could be raised.

The Echo suggests that the hospital first try to get those who don't pay to pay, even if it means priming their consciences. If that fails, raising the millage will at least spread the burden and a first class hospital is needed if our able doctors are to stay here and give us the emergency, as well as routine, assistance we need.

A Start Only

One of the major attractions of our area is a drive in good weather along the seaway. During the past few weeks most of the abandoned pilings have been removed thus making the view over the water more appealing. This project was financed by the county, the two municipalities and by contributions from interested citizens.

Two more steps could now be taken that would add even more delight to viewing this ocean and at the same time enhancing the value of the property along the beach front. The municipalities should begin cleaning up the debris, grass, empty beer cans and similar material from along the seaway and the adjacent beach area, while all owners of piers should be encouraged to keep their landings in good condition and appearance.

One aspect of good appearance that also helps keep wood in a safe condition is paint and most of the piers need paint, whether it be white, blue, yellow or red. The owners could improve the value of their property, help preserve it and at the same time assist their community if they would repair their docks and PAINT. The municipalities could set the example.

In predicting scattered showers, mostly in the northern portion, for Mississippi last Sunday, the weather station was technically correct. Our observers in the south were not scattered.

Letters to The Editor

Editor, Sea Coast Echo:
I would like to take this opportunity, and I am sure that all the other people who phoned the editor's office during the search for the two young boys that were missing, feel as I do that the editor's employees should be complimented in answering the many calls of inquiry about the boys, and remembrance, political consideration even though they were not their work that had to be done.

I can be trying on your nerves to try to do a job and do it right. I have to stop several times to answer the phone, so thanks to you for the help.

Brownlee, said recently that after acquiring complete data on the problem he will order the necessary corrective measures.

Illiteracy Battle Planned on Coast

Plans for a program to combat illiteracy along the Gulf Coast were told this week by Stanley D. Stamps, superintendent of the department of educational missions of the Mississippi Baptist Assn.

Stamps said arrangements are being made through the Rev. O. B. Anderson, superintendent of missions of the Gulf Coast Baptist Assn. of Gulfport which consists of Baptist ministers of Hancock and Harrison counties.

A week-long campaign has been approved by the Woman's Missionary Union of the same Baptist Convention. Stamps indicated workbooks will probably be held to assist interested persons establish and carry out a community teaching program for illiterates.

He said that where such programs are being sponsored throughout the state literacy councils are formed in communities to find and teach illiterates and semi-illiterates to read and write so that they may take their rightful places as adult literate citizens.

Stamps, stressing the need for a program on the Gulf Coast, pointed out that one out of every 10 adults in the United States is a functional illiterate, that is, 10.84 per cent of the population. He added that 25.10 per cent of Mississippi's population consists of functional illiterates.

Narrowing the problem down to Hancock County Stamps noted that according to the 1950 census 145 of the white adults 25 years old and over have had no school education at all and 815 have had only one to four years. Among the non-whites of the same age group 65 have had no schooling and 315 have had one to four years.

Commenting further Stamps pointed out that Mississippi, ranking 49th out of 50 in illiteracy, has one of the highest percentages of illiteracy in the nation. He added that Harrison County has the highest number of white illiterates.

New Car Inspection Requirements Told

According to the law all motor vehicles registered in Mississippi must pass an official inspection before they may be operated on public streets and highways. Passenger cars, pick-up trucks, trailers, mobile homes or house trailers and vehicles operated under a dealer's tag must be inspected, as well as motorcycles, motor scooters and motor bikes. They may not be operated without a valid inspection sticker.

Inspected by a qualified agency in another state may be accepted by the commissioner without a further inspection.

Exempt are farm vehicles not normally used on public highways and trailers, semi-trailers, pole trailers and mobile homes or house trailers if the gross weight of the vehicle and load combined is 3,000 pounds or less. All U.S. Government-owned and -operated vehicles and those certified by and subject to regulations and periodic inspections of the Interstate Commerce Commission are also exempt.

The five items passenger cars must be inspected for are brakes, lights, steering, tires and windshield wiper. Brakes will be checked for mechanical appearance, equalization and pedal reserve (two inches for regular brakes and one inch for power brakes). Road tests involving stopping distance will not be made while it is raining or if the streets, tires or braking surfaces are wet.

Except for motorcycles, motor scooters and motor bikes, all motor vehicles must have at least two headlamps. If the car has two headlamps then each one must burn on both HIGH and LOW beam. If the car has four headlamps then all must burn on HIGH and only the two low-beam lamps must burn on LOW. In any case, the lens must not be cracked or broken and aim must be correct. Both stop and tail lights are required and they must not have cracked, broken or missing lenses. Red rear reflectors are necessary on cars sold new after Jan. 1, 1948, and may be a part of the stop or tail light assembly.

The steering system must be in correct alignment, with no looseness in the front wheels, excessive free motion in the steering wheel, or side slip or scuff in excess of 30 feet per mile as measured on an approved testing machine.

Only the tires on the ground will be inspected, not the spare. They will be checked for excessive wear, lumps, bulges, cuts or snags that have damaged or exposed the body cords and side wall scuffs that have damaged the cords. The same standards apply to retreads as to new tires.

The windshield wiper on the driver's side must operate properly. Vehicles other than passenger cars will be inspected for the preceding items plus clearance and side marker lights and reflectors and directional signals. If required, Directional signals are necessary if the body and/or load of a vehicle or combination of vehicles extends 24 inches or more to the left of center of the steering wheel. They must be visible from front and rear. Pulpwood trucks are not required to have any lights other than headlights and tail lights.

If an inspection station rejects a vehicle for any reason the owner or operator is issued a rejection slip. When the required repairs are made he may return to the same station within five days and be reinspected at no charge.

Geigers Turn Hobby Into A Vocation

An Italian oil painting, vintage 1720, Mandarin squares, early 18th century, a pure white porcelain vase which was fashioned in 1533, tapestries, power, antique silver and furniture all harmoniously arranged and displayed beneath the same roof. To view these and similar objects of art one need not travel to a museum, but only to 738 Beach Blvd., Waveland. This fascinating collection can be found in the large, oak surrounded home of the talented Bob Geiger and his attractive wife Kitty.

Chicago-born Bob, perhaps best known in local art circles for his proficiency in the restoration of damaged masterpieces and portraiture met his wife, the former Kitty Walker, when he was commissioned to restore a portrait of her father which had been painted by her mother prior to their marriage.

Soon after their meeting they discovered that they had much in common. . . both are dedicated collectors. In fact so dedicated that it has become necessary for them to put some of the items on the market. . . there just isn't room for everything in the house.

Kitty, a native New Yorker (she was born in Manhattan) has a B.A. and was a psychiatric social service worker in addition to her hobby of collecting, designing jewelry and clothing. Her zeal for attending auctions was more or less hereditary.

One of her most prized tapestries was given to her great grandfather a Methodist missionary following the Boxer rebellion. It belonged to the last Dowager Empress and measures five by eight feet in diameter and is clipped velvet, fabric and paint. This and similar treasures have been in her family for many years. Kitty attended school in Europe when she accompanied her grandfather who represented the Protestant Churches of that country at the World Conference of Social Workers in Geneva, Switzerland.

The Geigers are involved in five separate projects at the present. Bob as always has restoration work; he has just begun a large portrait; they are framing pictures in every material from gold leaf to modern slim cards for prizes and enclaves, planning an exhibit which will be open to the public soon, and are completely redoing their home. Bob now has stripped the woodwork in the library down to the original cypress, has removed a wall which separated two rooms and plans to tackle the vast upper regions when the downstairs is complete.

A whole page could be used in mentioning only some of their paintings, furniture and the like.

MAYTAG automatic WASHER

with Bleach Dispenser ends bleach problems!

No waiting or diluting. Maytag does both jobs for you. Just add concentrated bleach through dispenser opening; bleach remains in dispenser until washer has filled and washing action starts, and is automatically diluted before being introduced into the wash water. After washing action starts, bleach is added slowly to provide uniform bleaching action.

No bleach damage to clothes. By providing automatic dilution and properly timed injection, Maytag prevents heavy concentrations of bleach from coming in contact with clothes. Gens forever are the tales in clothes, the weakened fibers, the uneven bleaching associated with strong liquid bleaches.

No half-hearted detergents. Modern detergents contain brightening agents which are destroyed by liquid bleach when bleach and detergent are added to wash water at the same time. By delaying the introduction of bleach until after the washing action has started, Maytag preserves the full effectiveness of your detergent and clothes come out sparkling clean, white, and color bright, wash after wash after wash.

Polly Peers At Waveland

It would be impossible to begin this column without mention of the one thing that is foremost in the thoughts of everyone; the community as a whole is shocked and saddened by the aftermath of what began as a schoolboys' camping trip and ended in tragedy. Heartfelt sympathy is extended to the families of Wally Bourgeois and C. E. Mauritz; also to the family of Mrs. Isabelle Lecorgne who for many years spent every summer in Waveland, she passed away in New Orleans Friday, and to the family of Charles Ziegler for whom funeral services were held on Monday. He was the husband of the late Elizabeth Ladner Zeigler of Clermont Harbor.

We're a bit late, but happy birthday to Uncle Jules Favre who celebrated his 81st March 12, at his home on Jeff Davis, and to J. L. Lefant - wife Carmel surprised him with pre-birthday doings on Thursday last, although his birthday was Sunday. Beulah and Wally Jean-freau were on hand for the festivities.

Sure Sign of Spring

As always when the spring fever season rolls around, a rash of new cars seems to break out all over town. Rural Route mailman Charlie Scianna is sporting a sharp new foreign car with a beep, beep horn and the Albert Grasses are driving about in a lovely new white model.

Get well wishes go to Eloise, (Mrs. R. J.) Ladner who is in Gulfport Memorial undergoing treatment for an ear infection, to Herman Price, who was hospitalized last week and is now recuperating at his home on St. Joseph, to Charles Bradley, to Alex Mouldous who spent last week in a New Orleans hospital undergoing a series of tests, to John Garza - he is still a patient in Hancock General, but we're happy to hear from wife Rose that the doctor may allow him to get out of bed in the next few days; and to Joan Bernard, see Villere, who was released from the same hospital last week.

Last Monday Bea Georgi folded her tent, except in her case it was a trailer, and silently stole away from Coleman Ave. The trailer (and Bea and George) are now situated on U. S. 90 next to her new gift shop. The unusual structure of the building has aroused so much comment that Bea will award a gift to the person selecting the most appropriate name for the new shop.

Mrs. Henry Vogelsberg journeyed to New Orleans Friday for a visit with Mr. and Mrs. W. J. Horn at their new home in Metairie. They formerly resided here on Coleman Ave.

Visiting Season Has Started

Visiting Mr. and Mrs. K. C. Sanford at their home 156 Beach Blvd. are M. Sgt. and Mrs. Newell Johnston of Dayton, Ohio. Sgt. Johnston has retired from the Air Force after 45 years of service and they have attended garden pilgrimages in Vicksburg, Natchez, Long Beach, Pass Christian and the Bay-Waveland tour.

Speaking of pilgrimages, Helen (Mrs. Will) Bortages and sisters, Annabel (Mrs. Elmer) Rearwood and Beverly and Judy Arnold took in some of the Natchez tour last weekend. They had a wonderful time and plan to return next year. While there they dropped in on Gerri Blanchard who is recuperating from her recent operation at the home of her parents in Vidalia, La. She is progressing nicely but is eager to return home.

The U. N. Durbins entertained visitors from the Pacific Northwest, Mr. and Mrs. Henry Minkema of Tacoma, Wash., who are on a vacation trip to Florida and the New England States. Mr. Minkema and Mr. Durbin are longtime friends, having worked together in the office of the U. S. Penitentiary at McNeill, Wash., for approximately 20 years.

Visiting Dee and Crutts Everette last week was Curtis' brother, Alvin 1st Class Charlie R. Everette of Omaha, Neb.

Still more visitors... dropping in on Mr. and Mrs. Charles Bradley last Sunday were Mrs. E. Davis, her daughter and son-in-law, Mr. and Mrs. Harry Riley and their 9 month old daughter Donna, all of New Orleans. Donna is a genuine niece of Aunt Jane of Times-Picayune fame.

Zelma Stelz and daughter, Georgette, spent Thursday and Friday in the city visiting George who has returned to work following his recent heart attack, but his physician doesn't want him to drive to and from Waveland as yet.

Despite the miserable weather Friday and Sunday, many came over to enjoy Saturday's sunshine. Among these were Mr. and Mrs. Calvin Phelps, who will move home permanently on April 1; Julia and Clarence Duvellich, the Richard Hagens of Waveland Ave.; they're already making plans to be here Easter; Lois and Carlos Lozano, Gladys and Harry O'Neill, Omega and Hespel Swayze, Earl Raymond drove down from Jackson with the Swayzes after accompanying his wife, Mildred, to the teachers convention there.

That energetic lady, Mrs. Ruth Ketchum, has been busier than usual of late. She recently entertained her sister, Mrs. Esther Kirsch of New Orleans and Mrs. Phil Abbott and Mrs. Georgia Pearson of Los Angeles, Calif. Last Thursday she accompanied the Rev. Dale Lyons to Vancleave where she played for a Methodist revival. Mrs. J. B. Smith and Mrs. Mildred Usher of Clermont Harbor also attended the revival. Next week she'll furnish the music for the revival which is to be held at the Waveland Baptist Church. Brother Hugh Martin of Gulfport will be the speaker and Owen Williams will lead the singing.

Congratulations to Marie and Bert Steffel. Their third child and second son, Clayton Allan, arrived at Hancock General March 10.

Welcome to Town

Welcome to Waveland to the Frank Mannings who, with their daughters, Virgie and Madeline, are now making their home on Waveland Avenue, they formerly lived on U. S. 90.

Ruth Landry has been doing quite a bit of entertaining since husband Al has been home on sick leave. He was injured on his ship several weeks ago. Last Sunday they had a crab boil in honor of their house guests, Ruth's sister, Mrs. Frank Chase and Mr. Chase. Other guests included Mrs. Louise Becker and Pat and Hal Becker of Baltimore, Md. Thursday night they hosted a crawfish boil for Louise Becker, Rose Richmond and Rae Cope.

Visiting his brother and sister-in-law, Mr. and Mrs. Maurice Martin, recently was Emil Martin, Jr., and Mrs. Martin, and Mr. and Mrs. Sidney Benn, Jr., all of Algiers, La., and Mr. and Mrs. Sidney Benn, of Triumph, La.

Thelma Dickson and daughter, Dianne, took advantage of the holidays from school to visit Thelma's mother, Mrs. Grace Baxter in Wiggins on Thursday. Friday they went to New Orleans to spend the weekend with Charlie's mother, Mrs. William Frere and Mr. Frere. Charlie joined them in the big city Saturday.

Animal News

Lambert Bortages has more than his share of trouble with a variety of pets. One of his ducks was ready to hatch when the high water washed away the eggs. He was also expecting a hen to produce baby chickens just any day, when something sneaked into the yard and ate the eggs. . . and to climax the series of difficulties, his small black cat, dropped down in the marsh and he had to pull him out. . .

Someone someone will give him that ONE chick for Easter, which should be no much of a problem.

Fishing and Hunting.

Remember to see Eddie Fyfe. He has the green trout he's been fishing for and ask him for the best one. . . a few more were taken in the bay. . . Jackson Ridge but he's not sure as to their luck.

Little Terry Schwartz, son of Mr. and Mrs. Nicholas Schwartz of Ansley, celebrated his second birthday Sunday in the home of Mr. and Mrs. Monroe LaFontaine (Chink and Ruth). Cake, ice cream and punch were served.

Blue Jeans Luncheon Held At Lefant's

The Blue Jean Garden Club Spring luncheon was held at Lefant's Restaurant, Clermont Harbor, at noon Monday.

The long table was decorated with camellias and a floral wreath from the garden of Mrs. Vivian Simms, treasurer.

The short business meeting was conducted by Mrs. Frank Simmons, president. Mrs. John Saleeby read the minutes and Mrs. Ola Moran, vice president, invited the members to view her grounds in Lakeshore. She said the azaleas, bridal wreath and wild roses would be in full bloom this weekend.

Mrs. Ruble Bortages was the auctioneer for the plant sale. Others attending were Messdames Rae Cope, J. P. Rousseau, Kirk Rheams, Rosa Richmond and Eva Ladner.

Russell J. Elliott

Candidate for Mayor

I Russell J. Elliott, sincerely and humbly request your support and vote for Mayor of the City of Bay St. Louis in the May 9th Democratic primary.

I want to express my deep appreciation for the confidence shown me in the office of Justice of the Peace. Please closely scrutinize my record in office and whether or not my appreciation has been shown and proven by conduct and action on an elected official. I pledged when seeking my present office that if elected, that I would be a fair-minded unbiased person will agree.

The basis of my campaign and term in office the present mayor may state or progress for our community. Regardless of what the present mayor may state or term, we progress his intention he certainly would have made some advancement in the future of our city over a period of eight years. Please do not be misled by pre-election promises of our present mayor.

Being younger, only 38 years of age, is a definite advantage. This fact was made known to the President of our great country, who is also a young man, modern and progressive ideas, along with the energy, ambition, willpower and determination through which he certainly tend to move our beloved city forward. Other cities have less possibilities than ours have moved forward with remarkable strides of progress so can we. I feel our present mayor lacks this drive, this desire to move ahead and progress of our present day progress.

I intend to let every business establishment and organization assist in the progress of our city. I will personally contact each periodically requesting their suggestions and criticism.

I am definitely an independent candidate, individually seeking office on my own ability, and not on the merits of any conserved group of politicians or organizations. I have no affiliation in my own ability, and know that when elected I can and will work with the present Mayor or any council that you may elect.

Even though the incumbent claims to have experience, actually just, the public are the ones who really have the experience of knowing he has shown a definite lack of doing anything progressive. I will work throughout the entire term of office for the progress of our city and not just prior to election.

My slogan and sincere pledge will be "It Can Be Done and It Will Be Done". Please let me take the mayoralty back into the City Hall, and let me represent the dignity and honor that this, the highest office of our city deserves. I will be an ACTIVE, AGGRESSIVE MAYOR and will expend every effort for the promotion and progress of our city.

In the future as in the past, I will be COURTEOUS, CONSIDERATE AND FRIENDLY TO THE PEOPLE ALL OF THE TIME.

I humbly request the support and vote of all people, regardless of any political affiliation, to support a change at this time will put in motion once again the progress of our city. As I previously stated to stand still is to go backward. Our city is in a state of stagnation and will go forward when you elect me your mayor.

Support and vote "Russell J. Elliott" for mayor on May the 9th the Democratic primary for a progressive administration.

Major Power Boat Regatta Scheduled

Thrills and spills are on tap for Sunday, May 7, when the first annual power boat regatta sponsored by St. Stanislaus Sidelines Club and the New Orleans Power Boat Assn. will take place in the Bay at the north end of Beach Boulevard.

Fourteen races are scheduled beginning at 11:30 a.m. Chairman M. R. Trelles of Waveland told the Sidelines at a meeting Tuesday night. Some of the world's fastest boats, piloted by top speed pilots, are entered in the event, he said.

Twenty-seven trophies will be awarded to first, second and third winners in each class. The regatta is an official event in the National Power Boat Assn. and pilots will be gunning for points to be counted at the end of the year to determine national champions. Races will include both inboard and outboard rigs. Speeds of more than 100 miles per hour will be common among the hydroplane entries.

Races will be five miles around an oval-shaped mile and two-thirds course. The races may be viewed by the public from the seawall and there will be cold drinks and sandwiches available.

Representing St. Stanislaus will be Mackie Trelles, son of chairman Trelles who was a top outboard pilot years ago having raced in Bay St. Louis, Chicago, Wisconsin and other national events.
